

Privacy Policy

LEGAL • Version 1 • Effective September 8, 2026

Welcome to Rory Financial. Rory Financial Group, Inc. and its affiliates (collectively, "Rory Financial", "we", "us", or "our") provide institutional ledgering, virtual account management, and multi-rail payment routing infrastructure. This Privacy Policy describes how we collect, use, process, and safeguard personal information of our business customers' representatives, developers, and visitors to our corporate platform.

1. Information We Collect

In connection with our business services, we collect information necessary to establish, maintain, and secure institutional accounts, including:

- **Business Contact Data:** Representative name, corporate email address, business telephone number, and physical office address.
- **Developer Credentials:** API keys, access tokens, and administrative credentials.
- **Compliance & Screening Data:** Identity documentation, corporate registry records, and screening details required under AML/KYC regulations.
- **Infrastructure Logs:** IP address, browser type, operating system, and routing activity logs.

2. How We Use Information

We process personal information to:

- Provision and secure API access and platform dashboards.
- Execute and reconcile transactions across routing networks.
- Comply with regulatory requirements, including sanction list screening and transaction monitoring.
- Improve our infrastructure performance, reliability, and security metrics.

3. Data Sharing and Transfers

We do not sell business contact or personal data. We share information only with:

- **Financial Network Partners:** Banking institutions, payment networks, and clearing houses involved in transaction routing.
- **Compliance Vendors:** Watchlist screening and risk intelligence providers.
- **Legal Authorities:** Regulatory agencies or law enforcement when required by legal process or regulatory directives.

4. Security Measures

Rory Financial implements institutional-grade security controls, including transit and rest encryption (TLS/AES-256), strict access isolation, and audit logging. We review our physical and digital security protocols regularly.
